

The diagram consists of a light blue rounded rectangle containing two expressions separated by a right-pointing arrow. The first expression is `po(op1, affected_columns: $\neg X$)`, where $\neg X$ is in red. The second expression is `po(op2, affected_columns: X)`. A grey arrow points into the first box from the left, and another grey arrow points out of the second box to the right.

`po(op1, affected_columns: $\neg X$)`

`po(op2, affected_columns: X)`
